Remember! Many of these cuts are best made as you go. If you have questions, check out the tutorial on our site!

CUT LIST PAGE 2

4'x8'x3/4" MDF

4'x8'x3/4" MDF
After making all of the cuts, drill 1 1/2” pocket holes into the short pieces of the frames. Build the top and bottom frame by attaching the short pieces to the long pieces with 2 1/2” pocket hole screws and wood glue.

Top Frame

Bottom Frame

Drill 1 1/2” pocket holes into the 2x6 legs pieces and attach them to the 2x4 pieces with 2 1/2” pocket hole screws and wood glue. Do this for all 4 legs.
Attach the legs to the outside corners of the bottom shelf with 2 1/2” wood screws and wood glue, from the inside of the frame, into the legs. The bottom of the legs should be flush with the bottom of the frame.

Flip the bench over and slide the top frame over the legs. Attach them with 2 1/2 wood screws and wood glue, through the legs and into the frame. The top of the legs should be flush with the top of the frame.
Attach the feet to the bottom of the frame with 2 1/2” wood screws and wood glue.

Attach the casters to the center of each foot.
Attach the bottom and top shelves with wood glue and 2” brad nails.

All finished! At this point you can add a finish or leave it bare. Make it your own and be sure to share your builds with us on social media and use #shanty2chic so we can share them too!

Happy Building!
