1

Cut all of your pieces to length from a single 8' 1 x 6 board. Note that your side pieces should be 1/2" shorter than your bottles.

2

Attach your bottom to both sides first. Use glue and brad nails for the construction. I used my Ryobi AirStrike brad nailer which I absolutely LOVE!

3

Use a 1-3/8" forstner bit to drill all of your holes. I included the dimensions for both ways of laying out the hole locations to save you some time.

4

Attach the top the same way you attached the bottom. Sand the piece as needed and apply the finish of your choice. Add your bottles and flowers and show it off!
