3 TOOL CONSOLE TABLE

SUPPLY LIST

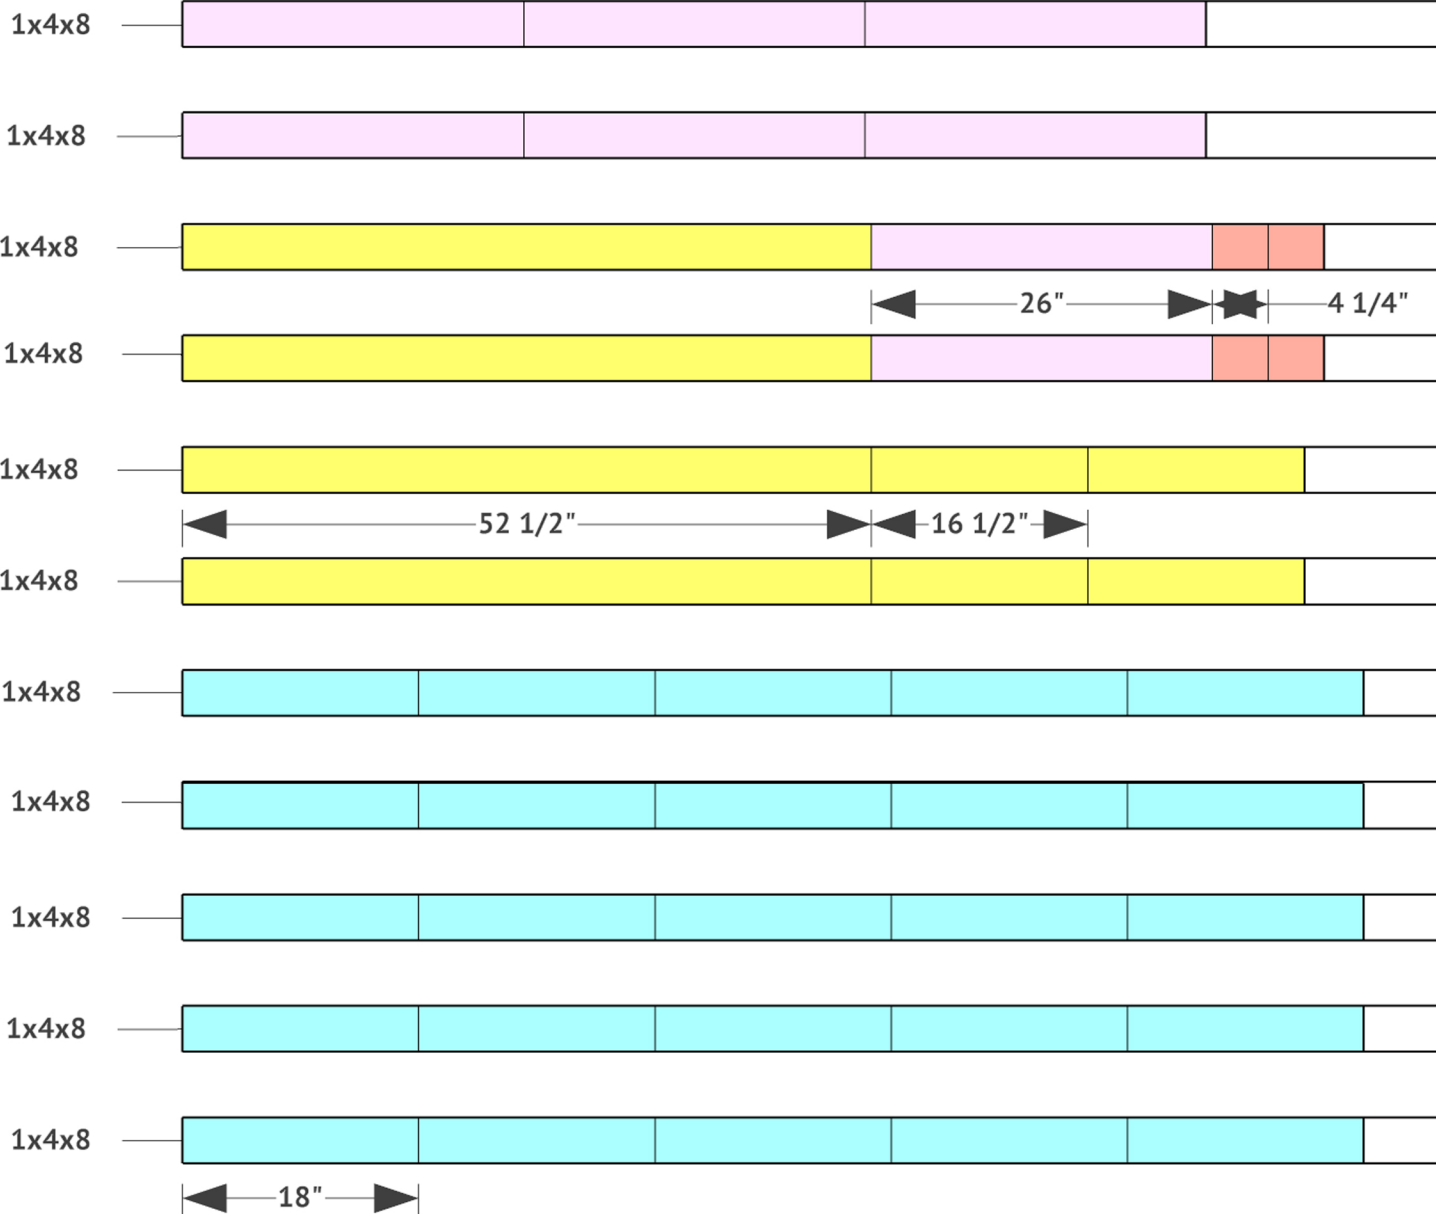

Item	Quantity	Description
1x4x8	11	pine or whitewood
casters	4	link on website
wood screws to attach casters	16	
wood glue		
1.25" finish nails		

Remember!

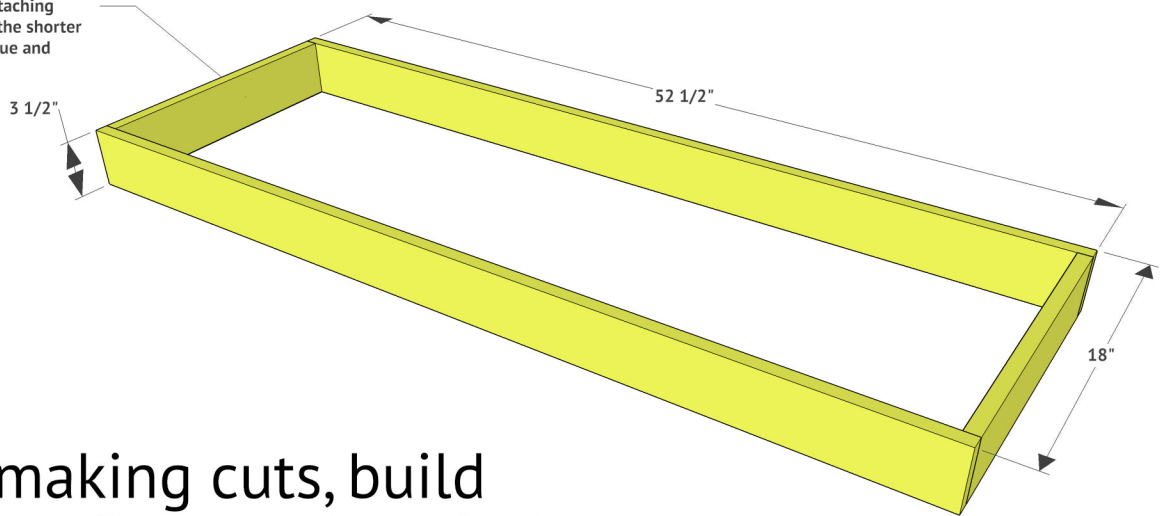

Many of these cuts are best made as you go. If you have questions, check out the tutorial on our site!

CUT LIST

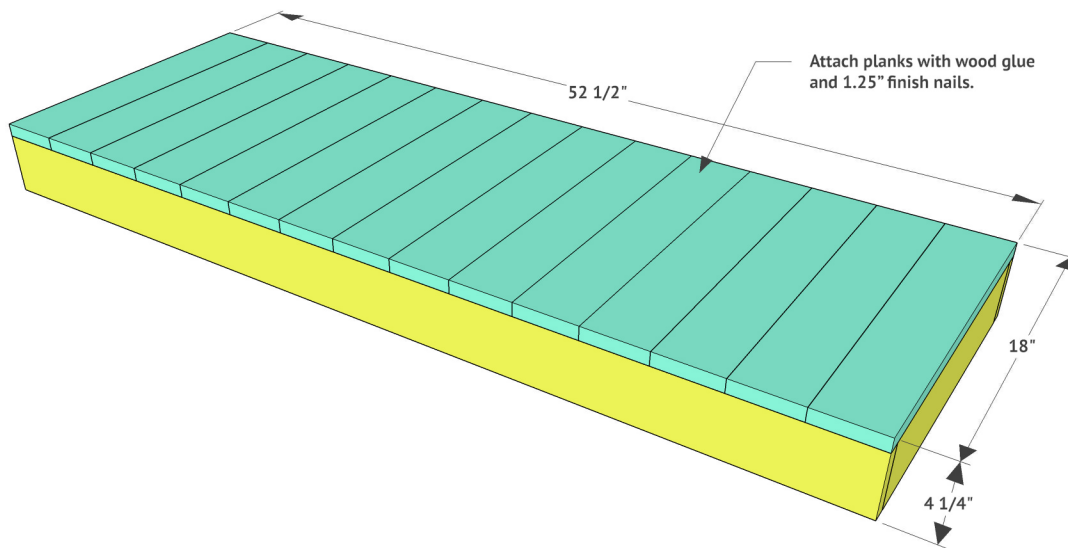

Build the frames by attaching the longer runners to the shorter runners using wood glue and 1.25" finish nails.

1

After making cuts, build two identical frames. Attach the long runners to the short runners using wood glue and 1.25" nails.

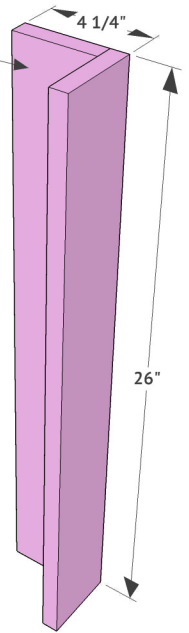

Attach planks with wood glue and 1.25" finish nails.

2

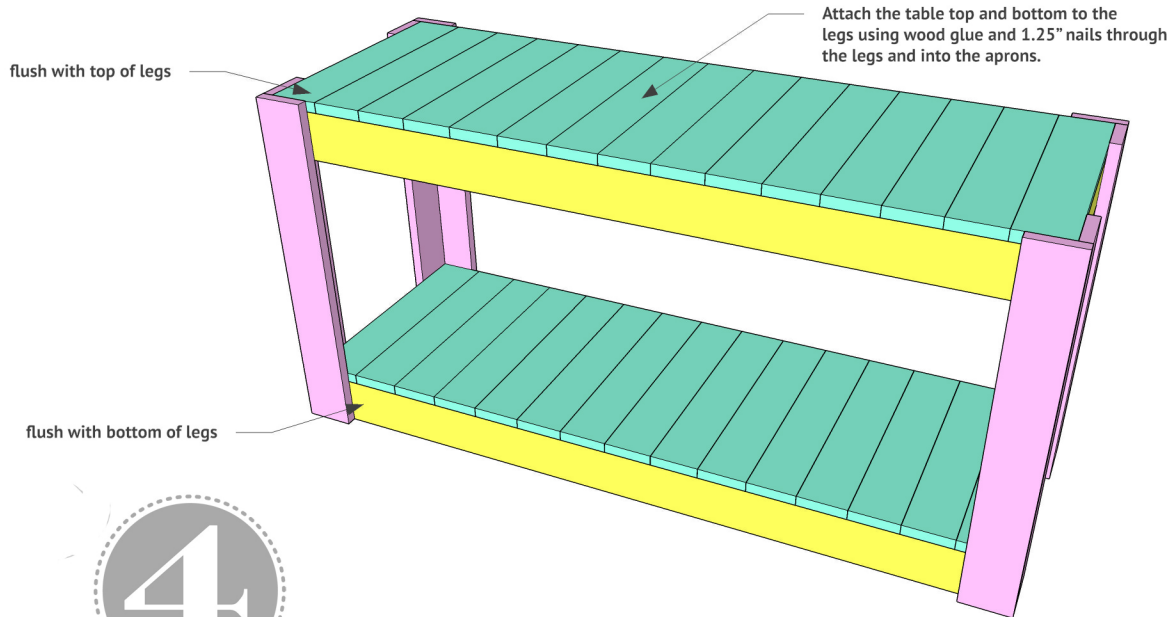

Next, line up 15 planks along the top of both frames and attach them using wood glue and 1.25" nails.

Build 4 legs. These are created by attaching two leg pieces together using wood glue and 1.25" nails.

Build 4 legs by attaching two leg pieces using wood glue and 1.25" finish nails.

3

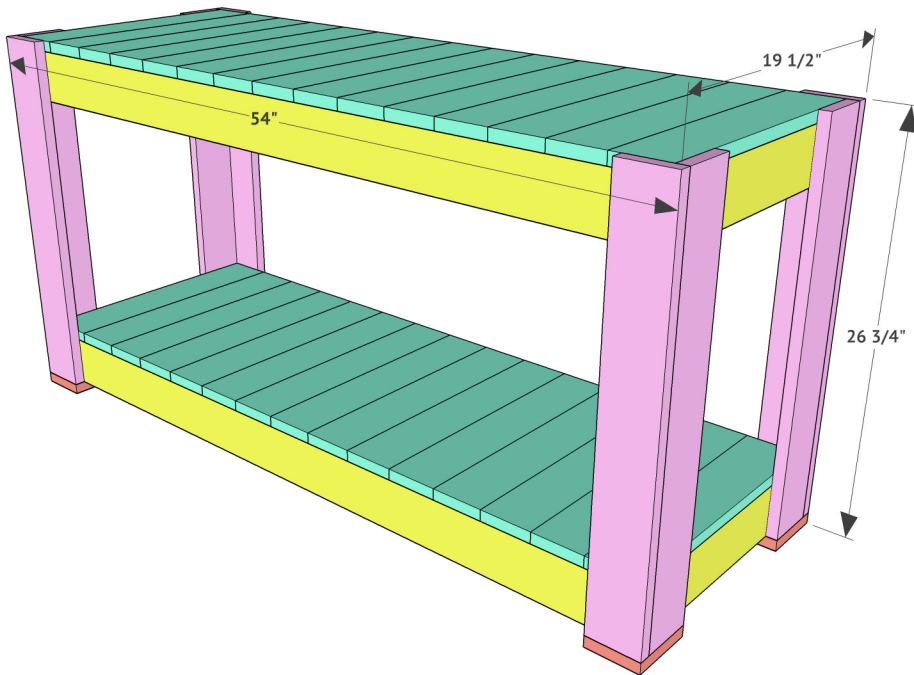

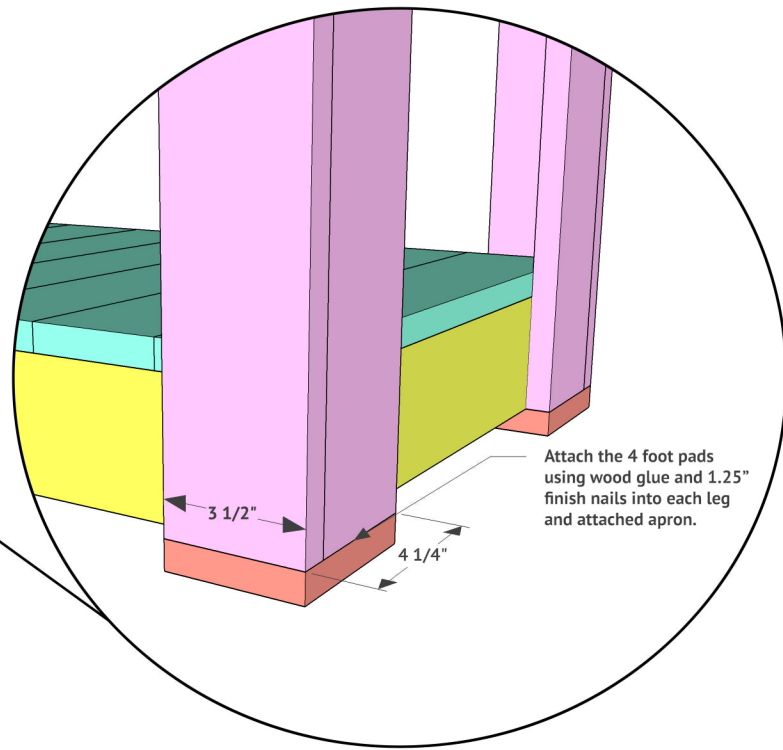

4

Attach the 4 legs to both the table top and table bottom using wood glue and 1.25" nails. The top of the legs will be flush with the top of the table and the bottom of the legs will be flush with the bottom of the table.

5

Add a foot pad to the bottom of each leg. These are also attached using wood glue and 1.25" nails and will hold the casters on the table.

6

Final step is flipping the console over and attaching the casters. These will attach to each foot pad using wood screws. Once they are attached, flip it back over and stain or paint your table to fit your style. Be sure to tag us in your finished projects! We love seeing and sharing them!
