Remember!

Many of these cuts are best made as you go. If you have questions, check out the tutorial on our site!

CUT LIST

11"

1/4" x 2.5" x 48"

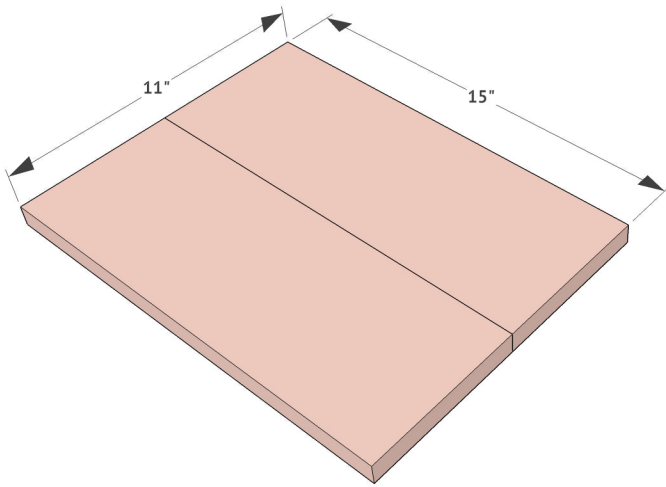

15"

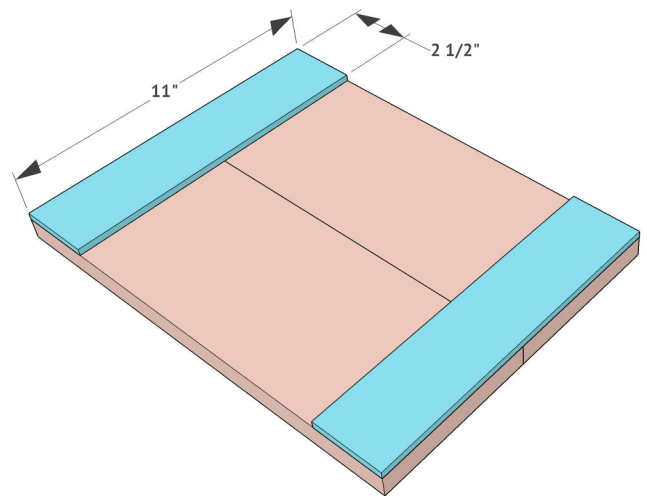

1 x 6 x 6

**** This is the cut list for 1 charger**

After making all your cuts, line up the two 1x6 planks together on a flat surface.

Now attach the craft boards to each end using wood glue and 5/8" nails. This will hold the planks together. Final step is painting or staining your chargers to fit your style. Once dry, attach the metal corners to each charger using a drill. Be sure to share your finish shots with us and tag us on social! We love seeing them!
