

Hairpin Leg Table

*S*leek and modern, this kitchen table is perfect for beginner DIY'ers. You'll have this done in an afternoon and in place ready for dinner with the family.

Make sure you read through the instructions carefully and take notice of any special construction notes prior to making any cuts. And always practice safe DIY'ing. Have fun!

PLEASE NOTE - many pieces may require you to cut them to fit a certain size while you are building it. Its best not to cut pieces until you need them. Take your time and study all the diagrams.

CUT LIST

MATERIALS LIST

Material	Qty

3

1.

Lay out the three lengths of 1x6 boards as shown and drill pocket holes for $\frac{3}{4}$ " material.

Attach the planks to each other, the outer pieces offset by 4" as shown, with wood glue and 1-1/4" pocket screws.

Lay out the three lengths of 1x6 boards as shown and drill pocket holes for $\frac{3}{4}$ " material.

Place all the boards top face down. Attach the planks to each other, the outer pieces offset by 4" as shown, with 1-1/4" pocket screws.

To cut the top into a circle first locate the center and gently tap a temporary nail in the board. Attach a piece of string from the nail to a pencil so that the pencil, when taught, reaches just to the edge of the middle board and draw a circle as shown.

Remove the nail and cut along the drawn circle with a jigsaw.

2.

Cut your 1x4 boards to length. Mark out a square, centered, on the underside of the table measuring 28" x28". Lay your 1x4s inside this square and attach with wood glue and 1-1/4" brad nails.

3.

Attach the hairpin legs into the corners of the 1x4 square.
