*Remember!*

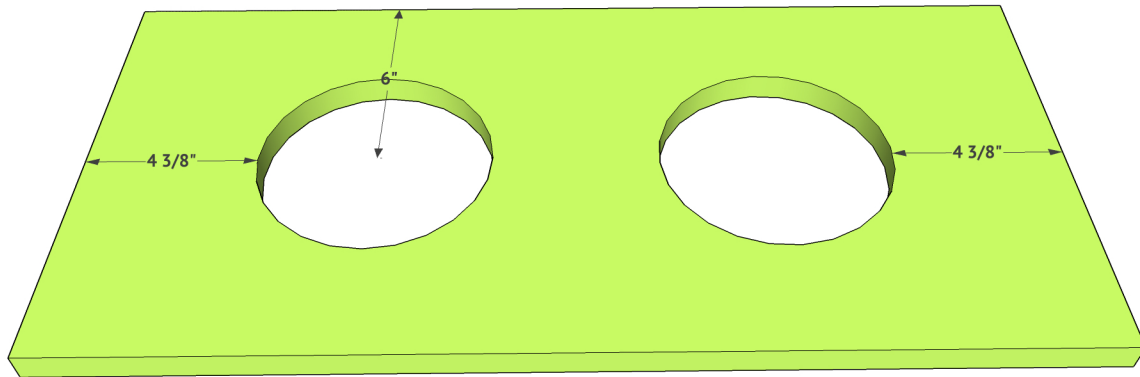

Many of these cuts are best made as you go. If you have questions, check out the tutorial on our site!

## CUT LIST

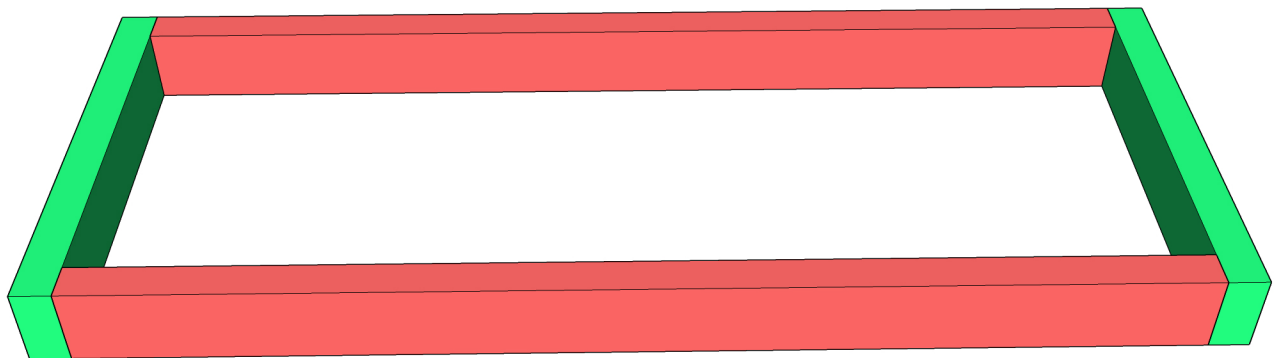

1

Cut the “table top” to size and trace two 6” circles on the project panel. Use a jig saw to cut the circles out.

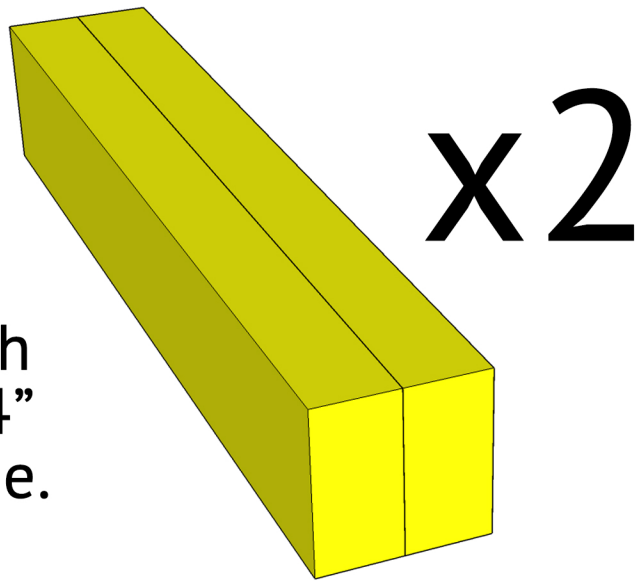

2

Cut the apron pieces to size and attach the two long pieces to the two short pieces with 1 1/4” brad nails and wood glue.

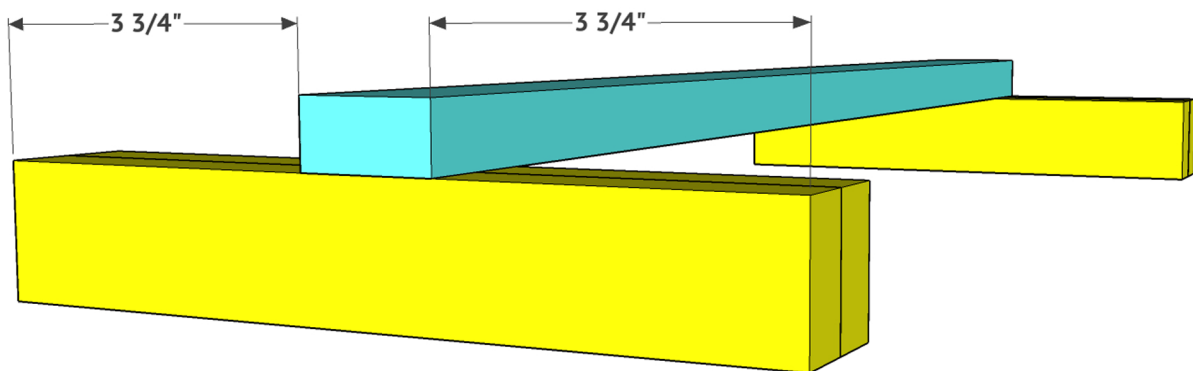

3

Cut the leg runner pieces to size and attach two together with 1 1/4" brad nails and wood glue. Build two runners.

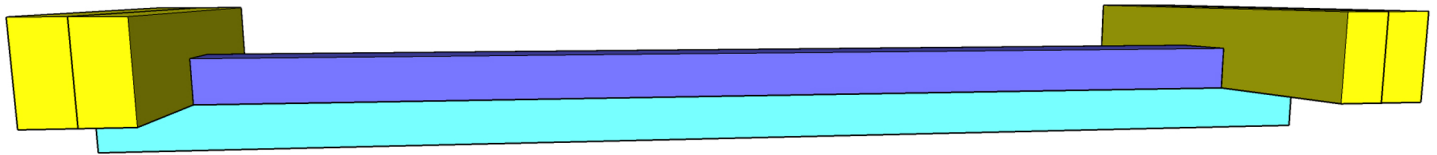

4

Cut the long stretcher to size, center it on top of the leg runners and attach it with 1 1/4" brad nails and wood glue.

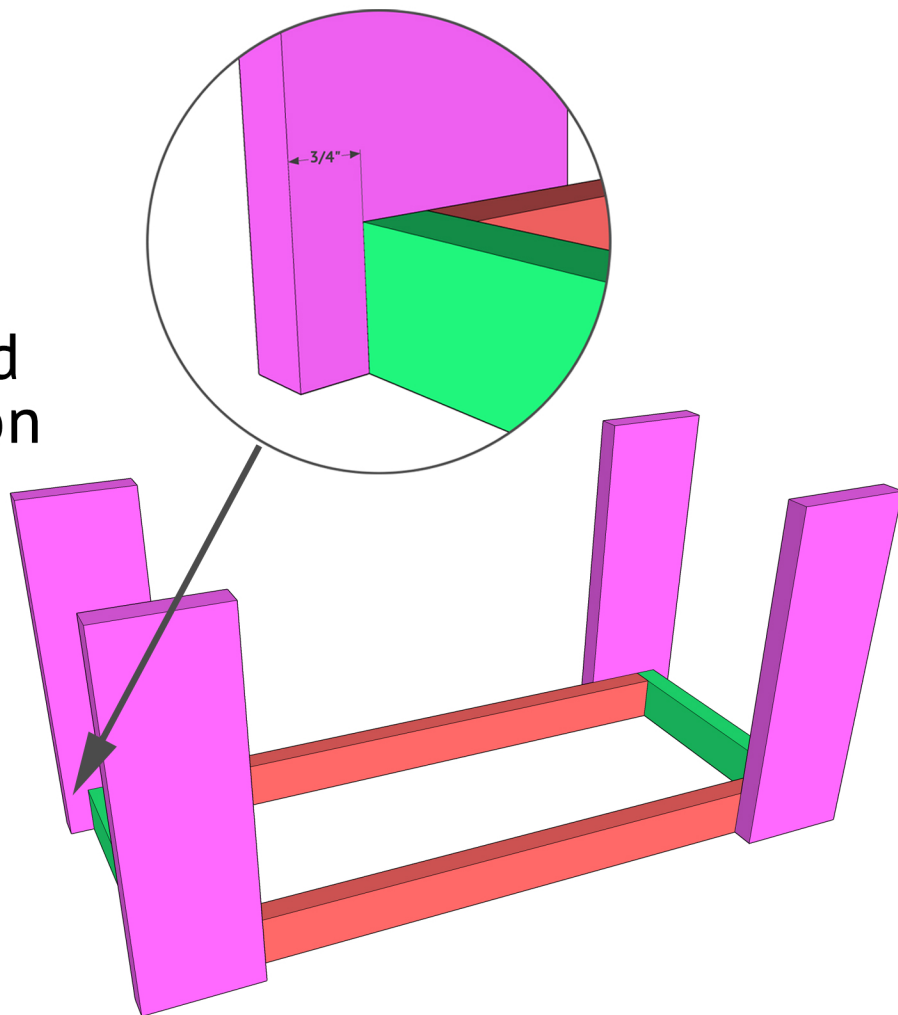

5

Cut the bottom runner to size, flip the leg runners upside down and attach the bottom stretcher to the top stretcher with 1 1/4" brad nails and wood glue.

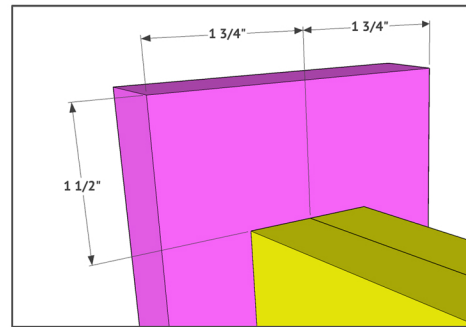

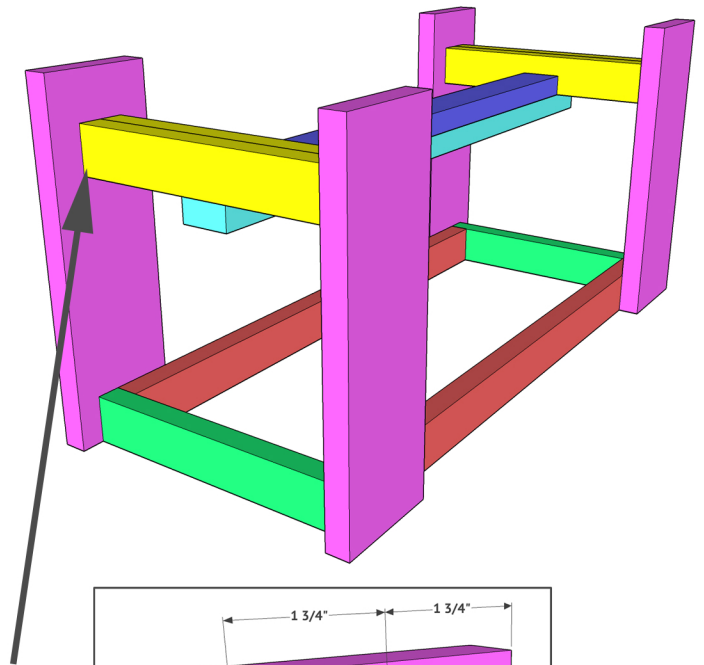

6

Cut the legs to size and attach them to the apron with 1 1/4" brad nails and wood glue. Note the leg placement on the aprons.

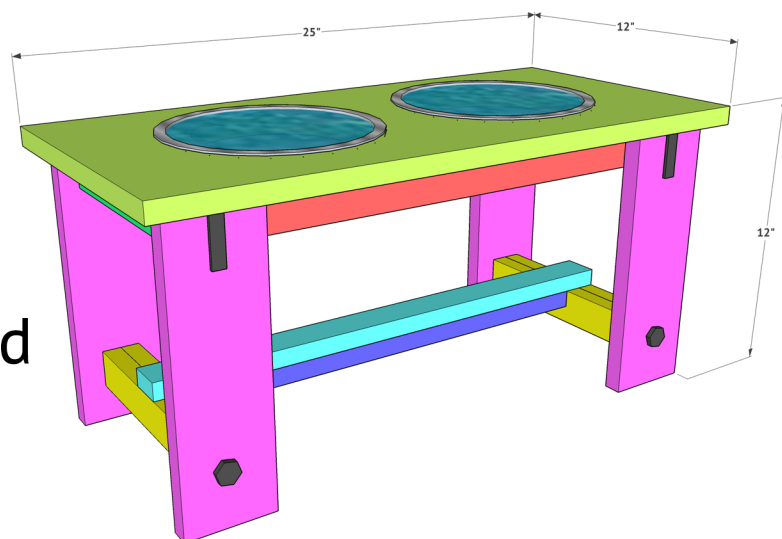

Turn the leg assembly upside down and attach the stretcher assembly to the inside of the legs with 1 1/4" brad nails and wood glue..

The final step is to attach the top to the aprons and legs with 1 1/4" brad nails and wood glue!

Add a finish and some decorative hardware and you're done! If you build our pieces share them on social media and use #shanty2chic so we can share them too!

Happy Building!
