2 1/2" Finish Nails		
Wood Glue		
Decorative Hardware		Link in Post on our Site

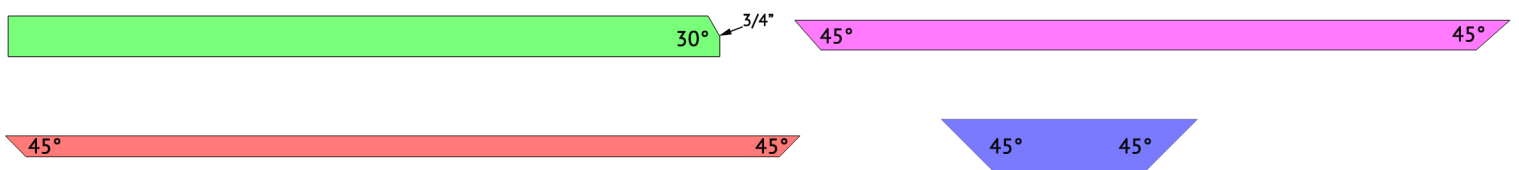

Remember!

Many of these cuts are best made as you go. If you have questions, check out the tutorial on our site!

CUT LIST

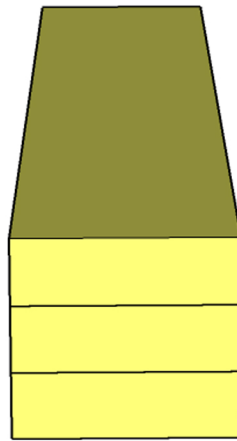

Miter Detail:

Note: We ripped the round edges off of all of the boards. This is not a necessary step but if you choose not to rip your edges, adjust the plans accordingly.

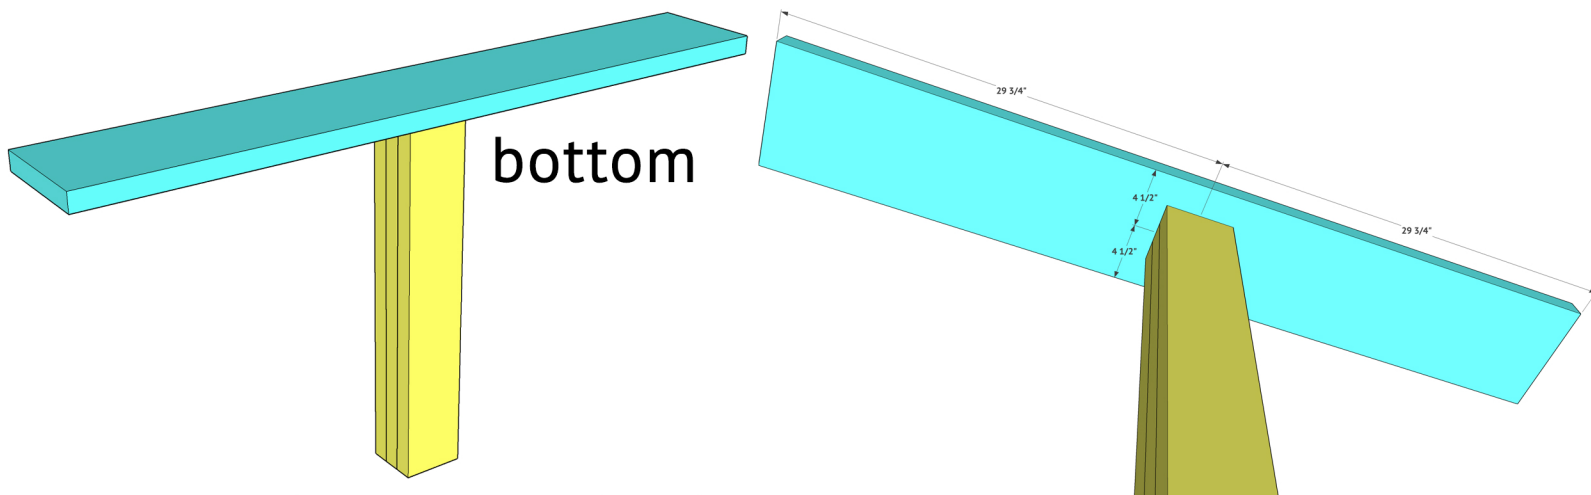

1

Cut the leg pieces to size. Stack them together and attach with wood glue and 2 1/2" finish nails.

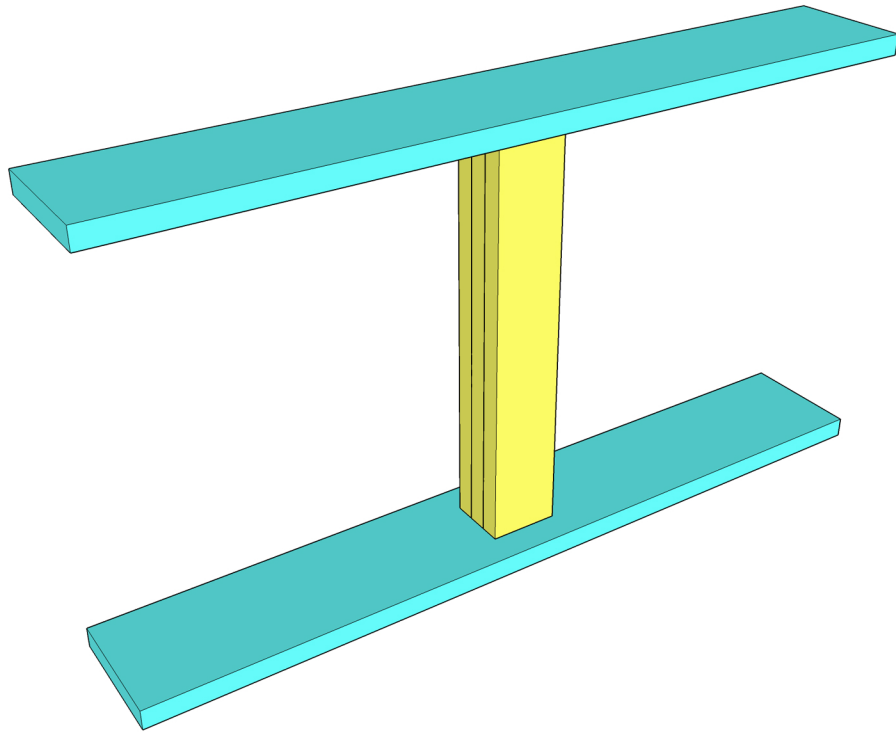

2

Cut the horizontal base planks to size. Center and attach one plank to the bottom end of the leg assembly with wood glue and 3" wood screws, from the bottom of the plank, into the leg assembly.

3

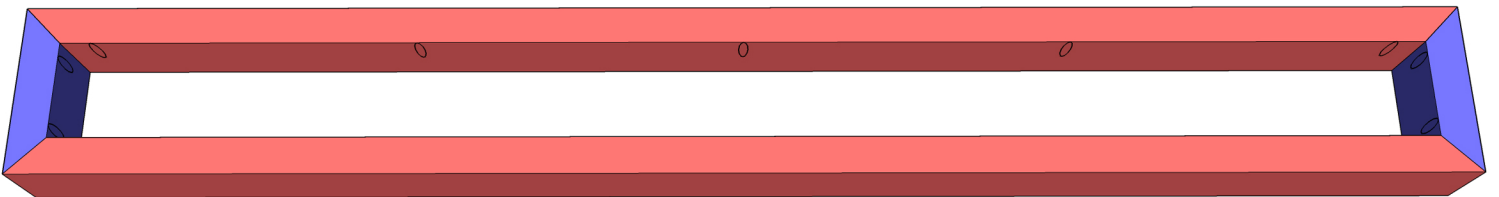

Flip the console over and attach the top base plank to the other end, the same way.

4

Cut the apron pieces to size. Drill 1 1/2" pocket holes into one edge of each piece. Attach the pieces together with 2 1/2" finish nails and wood glue. Note: make sure all of the pocket holes are facing the same way when assembling. Build two aprons.

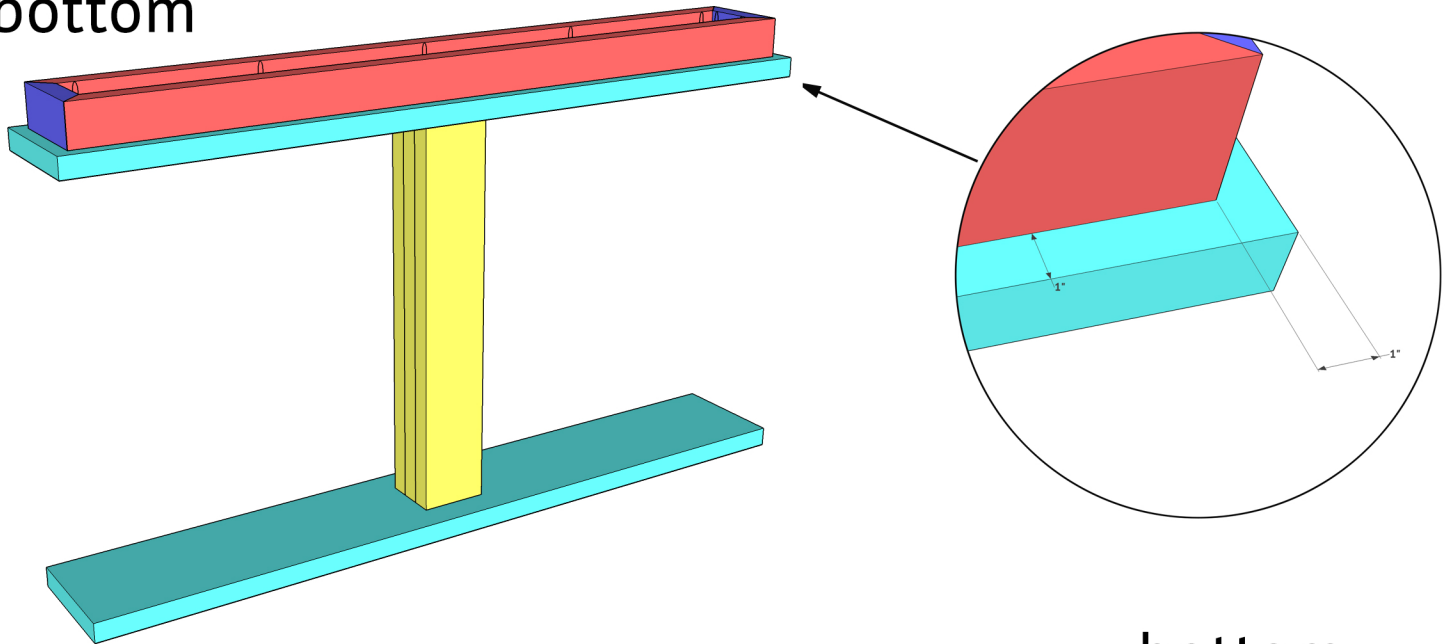

x2

5

Flip the console upside down. Center the apron on the bottom of the bottom plank and attach it to the plank with 2 1/2" pocket hole screws and wood glue.

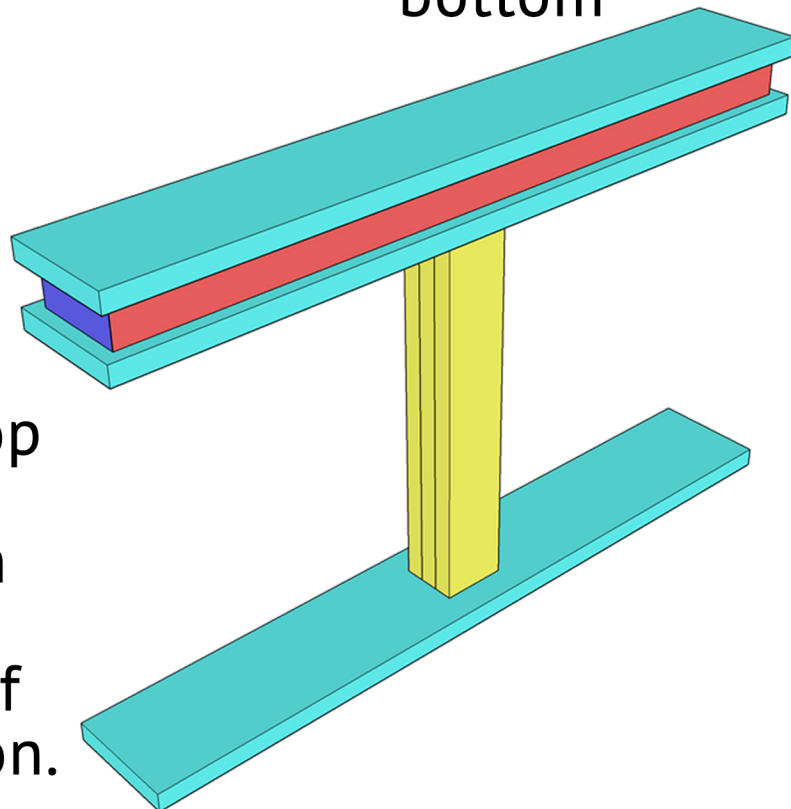

bottom

bottom

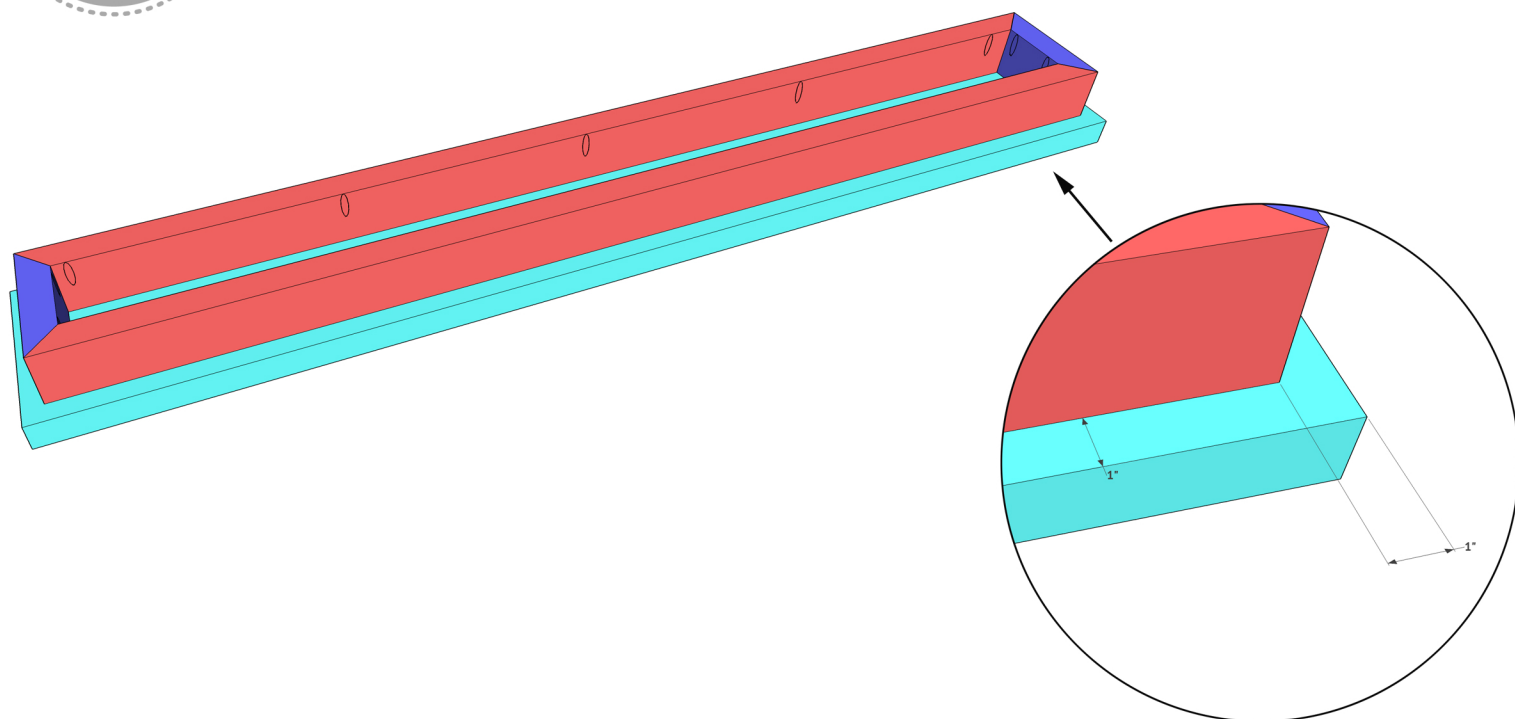

6

Center another plank on top of the bottom apron and attach it to the apron with 2" wood screws and wood glue, from the top of the plank and into the apron.

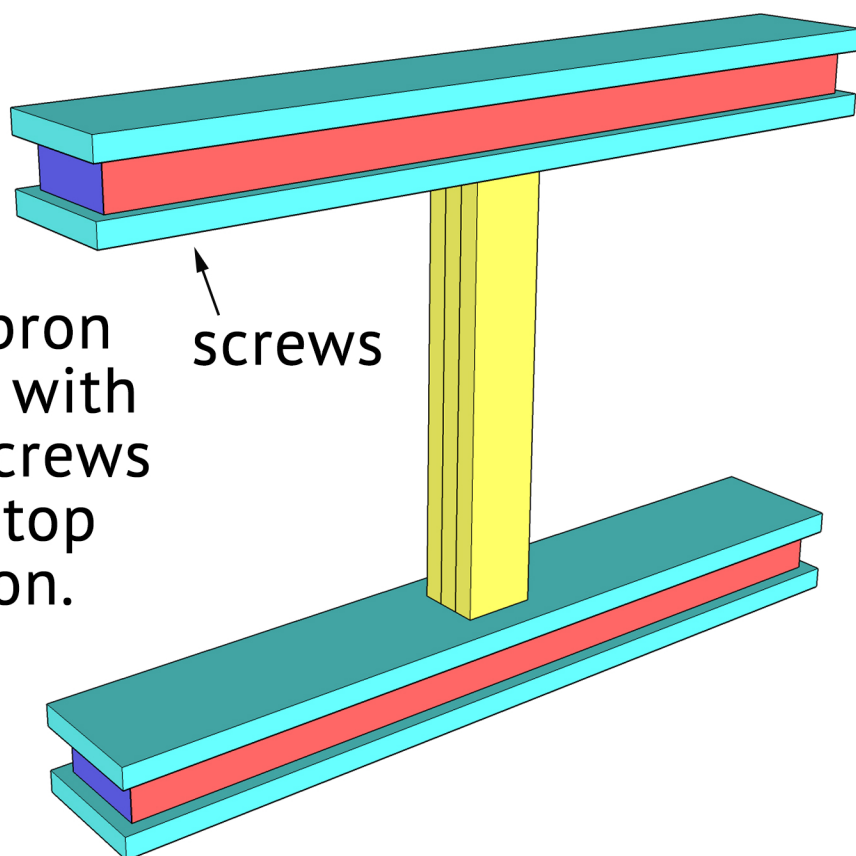

Center and attach the other apron to the remaining plank with 2 1/2" pocket hole screws and wood glue.

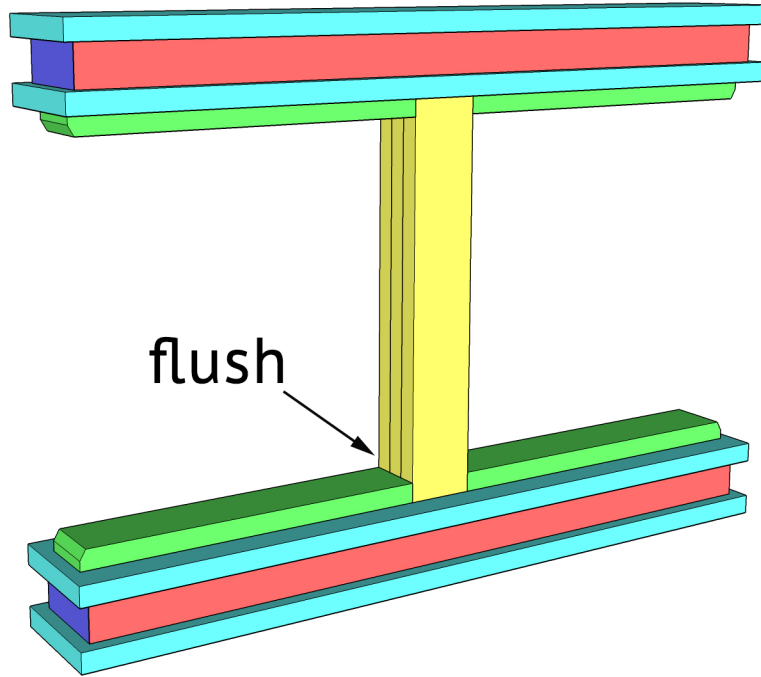

Center and attach the apron to the top of the console with wood glue and 2" wood screws from the bottom of the top plank and into the apron.

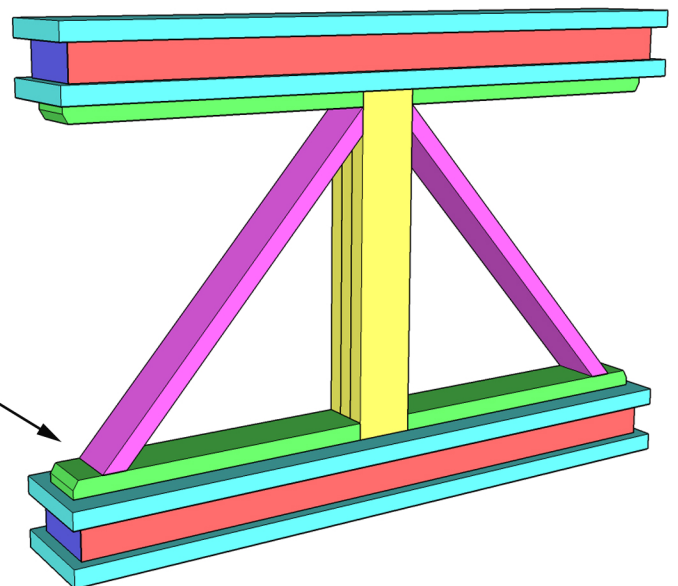

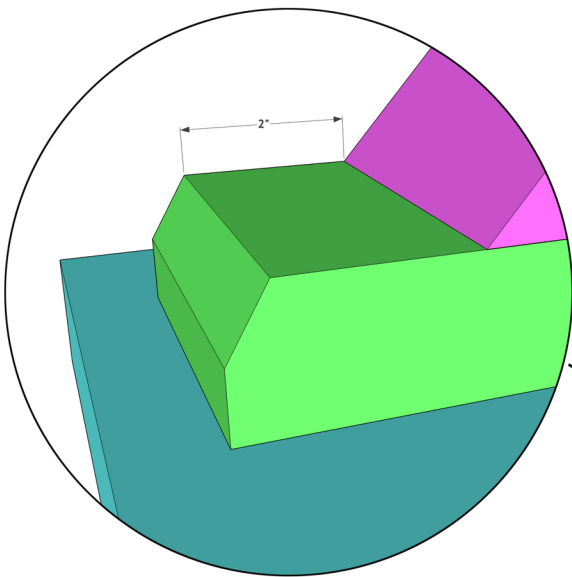

9

Cut the horizontal truss pieces to size and attach them to the top and bottom bases with 2 1/2" finish nails and wood glue. The truss pieces should be flush with the leg base.

10

Measure and cut the angle truss pieces to size. Attach them to the table base with 2 1/2" finish nails and wood glue.

Fill any nail holes with wood filler, give it a good sanding and add a finish! We added metal hardware to our console to customize it! Have fun and make it your own! Make sure to share your builds with us on social media and use #shanty2chic so we can share them too!
