DOORS

13

Cut the door pieces to size and drill 1 1/2" pocket holes into the side boards. Attach them to the top and bottom pieces with 2 1/2" pocket hole screws and wood glue.
14

Cut the mesh to size and attach it to the back of the door frames with 3/4" staples.
17 Cut the top and middle drawer pieces to size and drill 3/4" pocket holes into the ends of the long pieces. Attach the long pieces to the short pieces with 1 1/4" pocket hole screws and wood glue. Build 2 drawers.
x2

18

Cut the drawer bottoms to size and attach them to the bottom of the drawer frame with 3/4" staples and wood glue.
x2

17 Cut the bowl drawer pieces to size. Drill 3/4" pocket holes into both ends of the long pieces and attach them to the short pieces with 1 1/4" pocket hole screws and wood glue.
18 Cut the top piece of the dog bowl to size and use a jigsaw to cut the circles for the bowls. Attach the top inside the frame and use 1 1/4" brad nails and wood glue to attach. The top should be flush with the top of the frame.
19

Install the drawers inside the cabinet with drawer slides. You can get more details on how we installed ours in the post on our site!
20

Cut the drawer face pieces to size and attach them to the front of the drawers with 1 1/4" wood screws, from the inside of the drawer and into the back of the drawer face.
21 Cut the top panel to size then, measure and cut the side trim pieces to size. Attach the side trim pieces with wood glue and 1" pin nails.

22 Measure and cut the front and back trim pieces to size. Attach them to the top panel with 1" pin nails and wood glue.

To attach the top, use 1 3/4" wood screws from the top supports and into the plywood top.

Now, just add a finish, hardware and dog bowls and you're done!
