DIY Parquet End Table

SUPPLY LIST

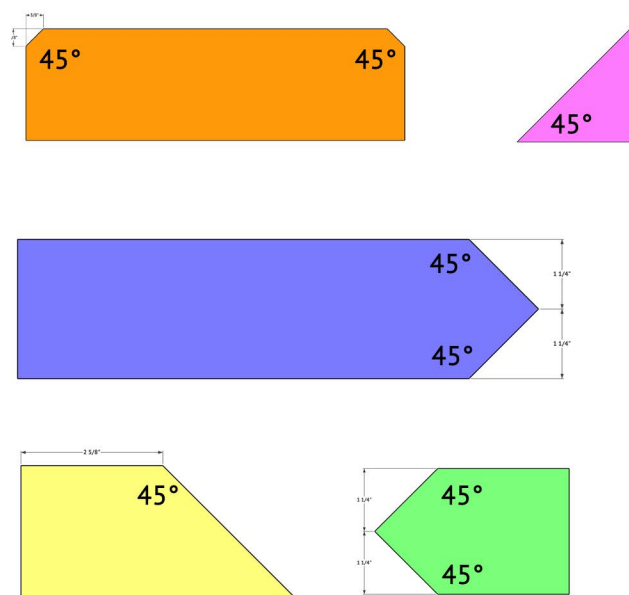

Item	Quantity	Description
1/2"x6"x48"	3	Barnwood Planks - Link in Post on our Site
1/2"x24"x24"	1	Hardwood Plywood
Table Legs	2	Link in Post on our Site
1" Pin Nails (or Brad Nails)		
Wood Glue		

Remember!

Many of these cuts are best made as you go. If you have questions, check out the tutorial on our site!

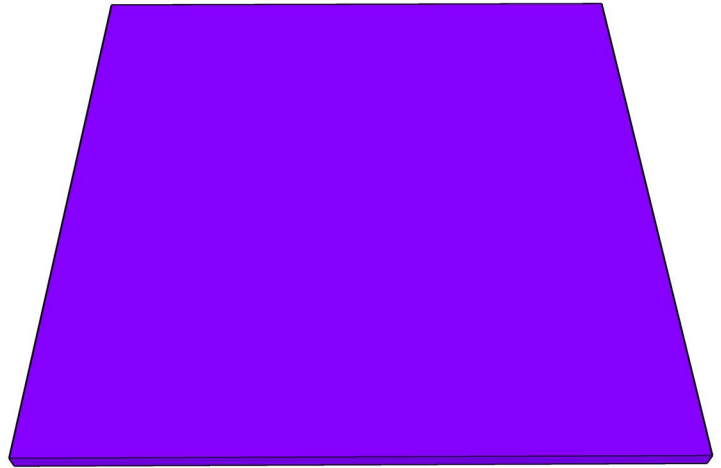

Miter Cut Details:

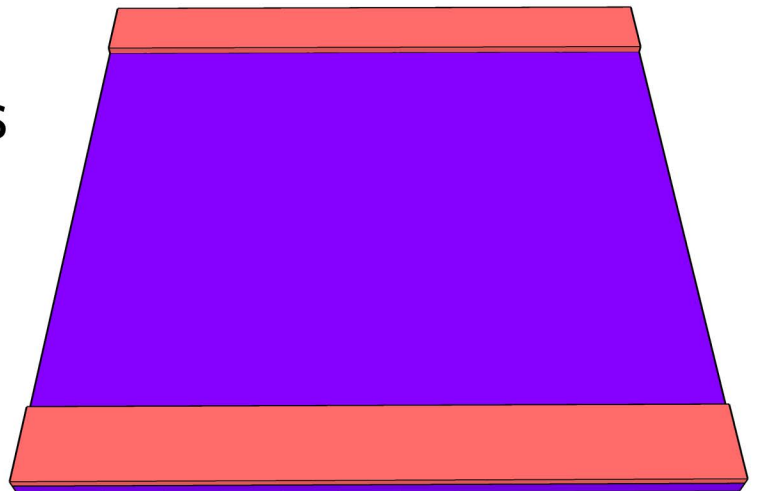

Note: I used reclaimed wood planks for the table top and ripped to the widths on the cut list. You can substitute with 1x6x8 pine but be sure to adjust the width of the trim boards if you do so.

Cut the plywood sheet to size.

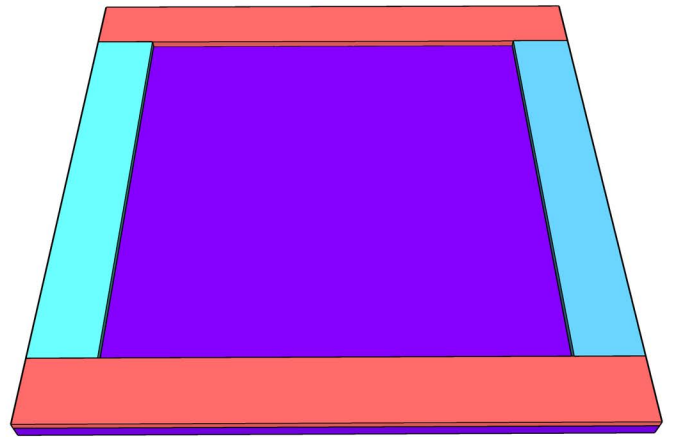

Cut the long frame pieces to size and attach them with 1" pin nails and wood glue.

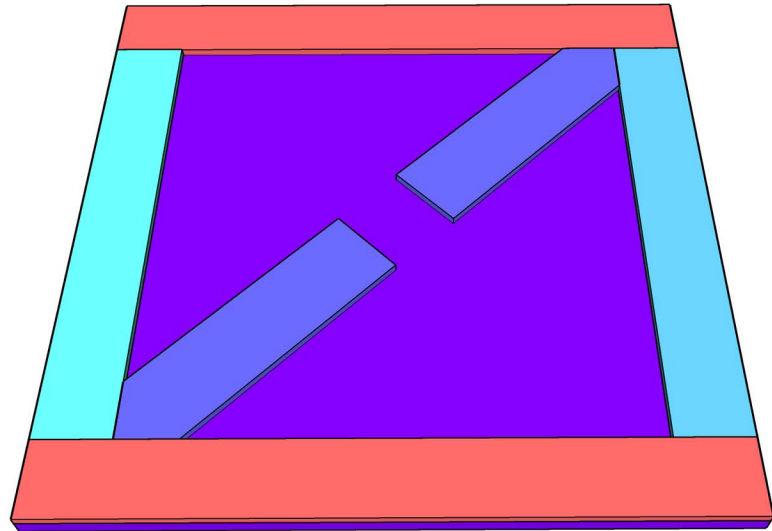

3

Cut the short frame pieces to size and attach them to the plywood, as shown, with 1" pin nails and wood glue.

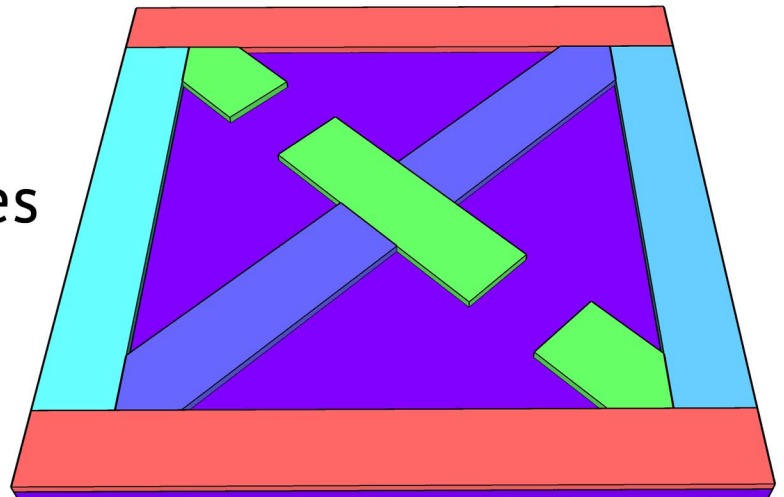

4

Cut the first corner pieces to size and attach them with 1" pin nails and wood glue.

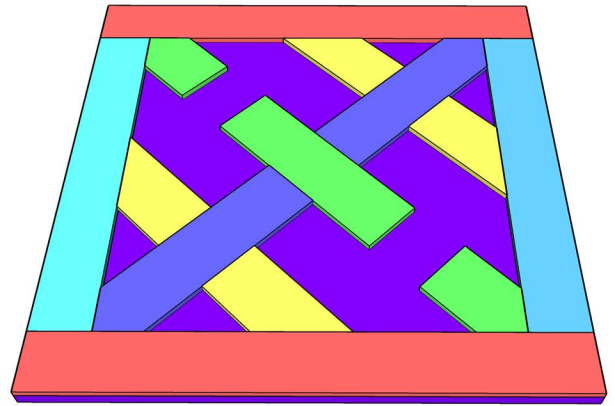

5

Cut the second corner pieces and middle cross piece to size and attach them with 1" pin nails and wood glue.

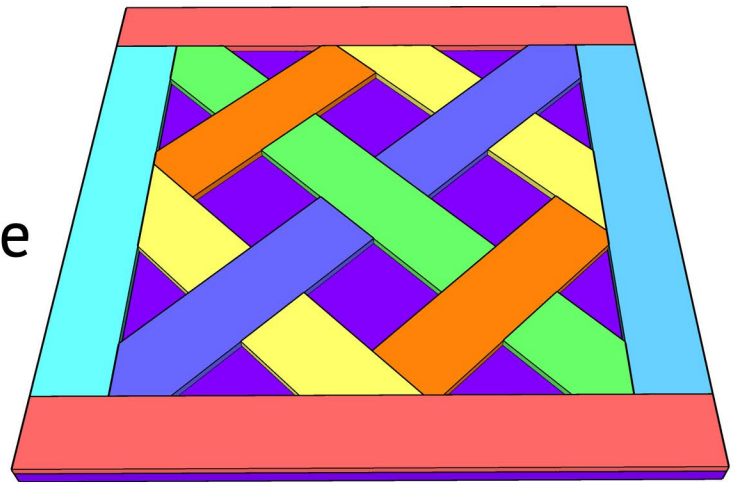

6

Cut the yellow pieces to size and attach them with 1" pin nails and wood glue.

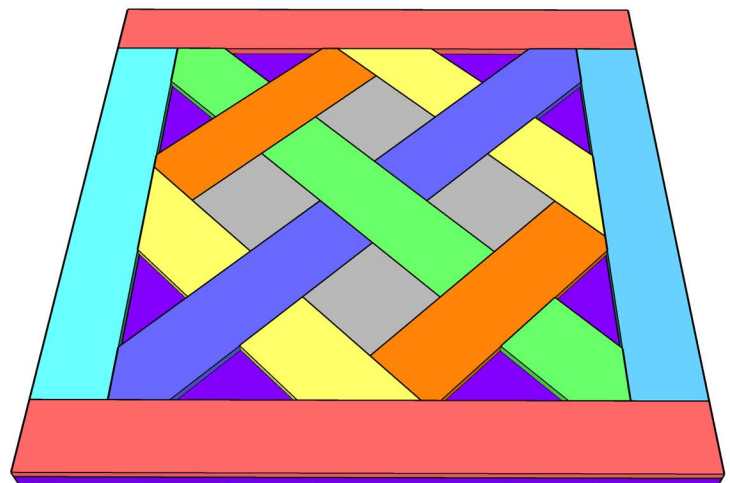

7

Cut the orange pieces to size and attach them with 1" pin nails and wood glue.

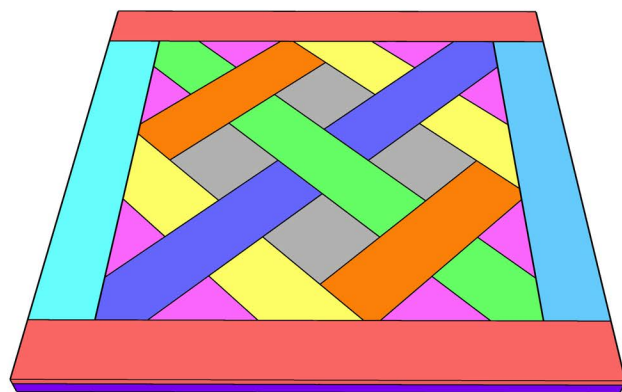

8

Cut the square pieces to size and attach them with 1" pin nails and wood glue.

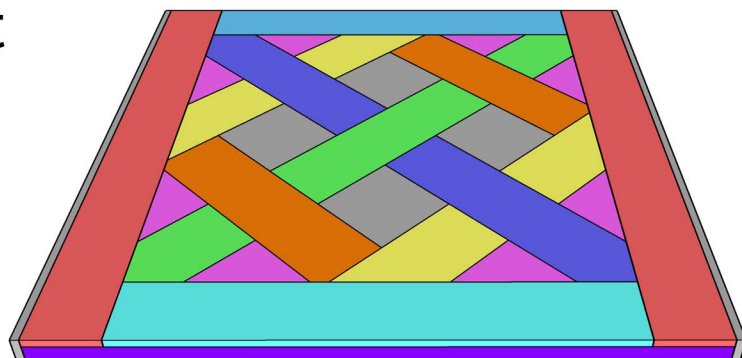

9

Cut the triangle pieces to size and attach them with 1" pin nails and wood glue.

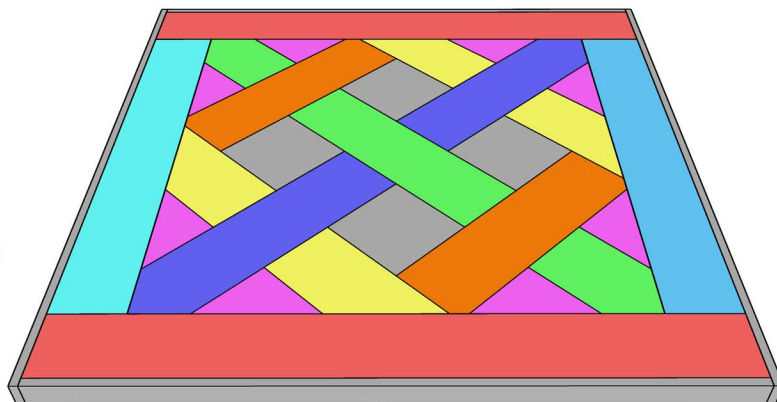

10

Measure and cut for the first trim pieces and attach them to one side of the table top with 1" pin nails and wood glue. The top of the trim should be flush with the top of the table top.

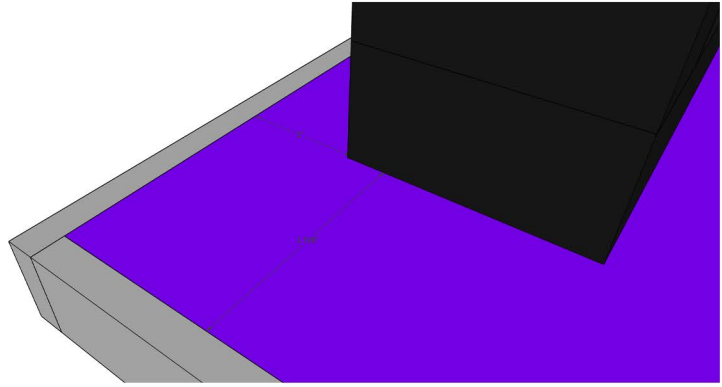

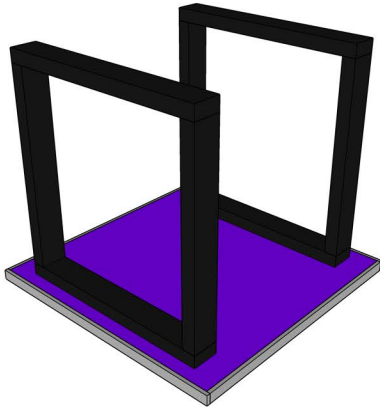

11

Cut the short trim pieces to size and attach them to the short sides of the table top with 1" pin nails and wood glue.

12

Flip the table top over, center the legs on the bottom of the plywood and attach the metal legs to the bottom of the table top.

If you used barnwood, you're all done! If not, add a finish! Make sure to share your builds with us on social media and use #shanty2chic so we can share them too!

Happy Building!
